Statutory Comparison: Under the FCC Over-the-Air Reception Devices rule (47 C.F.R. § 1.4000, including FCC 21-10), preemption is conditional on equipment type, property scope, and impairment: (1) Covered equipment includes direct-broadcast satellite (DBS/DSS) dishes one meter (39.37 inches) or less in diameter, television broadcast antennas, and fixed wireless broadband antennas; (2) Covered property is limited to areas within the owner's or occupant's exclusive use or control and does NOT extend to shared condominium roofs, exterior common walls, or general common elements; and (3) On covered exclusive-use property, restrictions are unenforceable if prior written consent/approval causes unreasonable delay, screening/mounting rules impose unreasonable cost, or sub-1-meter diameter caps or front-elevation/visibility bans preclude reception of an acceptable quality signal, unless justified by a documented safety objective (§ 1.4000(b)(1)) or a National Register historic site (§ 1.4000(b)(2)).
